# ACE MEMBER SPOTLIGHT

**EMMA GILLINGER**

**Emma Gillinger is from Keller, Texas! Emma is the Marketing Director for the Student Union Activities Board, you'll catch her at tabling events or making all of our SUAB swag! Emma is a Junior double majoring in Marketing and Management, with a minor in Human Resources. When she is not working with SUAB she loves to go to concerts, play in the Cowboy Marching Band, and watch any kind of Disney movie!**

## Q&A WITH EMMA

### **1) How has SUAB help you grow as a person?**

**Emma:** Being a part of SUAB has really helped me grow as a leader and a person. Leading the Marketing Committee has taught me a lot about how to connect with people, and lead them to be their best selves and create the best work that they can. Because of that, I have created a better version of myself through them.

### **2) What makes SUAB different from other organizations on campus?**

**Emma:** I am a part of multiple organizations across campus and SUAB sticks out the most to me for multiple reasons, the first being the quality of experiences you receive when attending a SUAB event. You are always greeted with a smile and enthusiasm from every student/staff across every event, and I think that is something very rare and special.

### **3) Favorite memory in SUAB and why?**

**Emma:** My favorite memory in SUAB was at the Executive Board retreat this summer, I feel like that was the first time that we had all bonded and gotten close to each other, and it was very special to watch everyone's walls come down and grow together

## "WHITE NOISE" BY DON DELILLO

**White Noise tells the story of Jack Gladney, his fourth wife, Babette, and four ultramodern offspring as they navigate the rocky passages of family life to the background babble of brand-name consumerism. When an industrial accident unleashes an "airborne toxic event," a lethal black chemical cloud floats over their lives. The menacing cloud is a more urgent and visible version of the "white noise" engulfing the Gladneys-radio transmissions, sirens, microwaves, ultrasonic appliances, and TV murmurings-pulsing with life, yet suggesting something ominous.**
